## VACATING OF HARBIN CONTRAST IS DRAWN.

Women and Children Leave and Mercantile Houses Close.

### KUROKI'S MOVEMENT

He Is Thought to Be Headed in the Direction of Vladivostok, but Russian Military Experts Are Still Guessing.

Gunshu Pass, Manchuria, March 24.—Women and children are reported to be leaving Harbin and business houses are closing. The stationary hospitals are being moved back and the entire railroad east and south of Tsitsihar is being prepared for the next stage of the war. Conviction exists that General Kuroki is now moving toward the northeast for investment of Vladivostok, changing his base for that purpose to "Gensan." While the Manchurian railway is employed to supply the main army in its advance on Harbin, the Japanese seem still partial to the plan of keeping close to their sea bases, and instead of following the Russians some military experts are of the opinion the Japanese may relieve the pressure upon General Linewitch and thus induce him to concentrate in the region between Santopu and Tie Pass for another battle. But throughout the campaign all prognostications of experts regarding the plans of the Japanese have failed. The aspirations of the Japanese are consistently fattening upon the victories achieved. The rank and file of the Russian army show a peculiar adaptability to conform with new conditions and accommodate themselves to the wishes and intentions of the commander in chief and the government.

### HISTORY OF INTRIGUES.

Papers Supporting Peace Movement Are Publishing Some Matters.

St. Petersburg, March 24.—Papers supporting the campaign for peace are beginning to print quite openly the history of intrigues in the far east for protection of private interests. They are devoting special attention to M. Bezobrazoff's connection with the Yalu timber concession. Articles include the secret memorandum of General Kuropatkin, pointing out that war would be inevitable if the Russian interests extended into Korea.

The necessity for increased taxation to meet expenses of the war is recognized and minister of finance has submitted projects to the council of the empire, including taxes on beer, matches, etc., and graduated tax on salaries of government officials, beginning with 1 per cent on salaries over \$300, which altogether will realize about \$11,000,000. There is also a proposition for a general income tax, which will undoubtedly prove the most popular form of raising money, as it will bear the heaviest on those able to pay.

### ALL BUT DATE.

With This Exception Final Details of Japanese Loan Concluded.

London, March 24.—With the exception of the exact date of issue, Japanese loan of \$150,000,000 at 4 1/2 per cent, price of issue 90 and security net receipts of tobacco monopoly of Japan, has been completed. This city and New York each take \$75,000,000. The loan is redeemable after five years. Some subscriptions are expected in Switzerland and Holland. Japan found no difficulty in securing the amount required in New York and London.

### Squadron at Port Said.

Port Said, March 24.—Admiral Nebotoff's division of the Russian Second Pacific squadron, consisting of a battleship, four cruisers and four transports, arrived here. The vessels are not coaling and only taking moderate supplies on board. The transports are heavily laden with stores.

### Delegates Received.

St. Petersburg, March 24.—Interior Minister Boulganin received a delegation from the municipality of Moscow, who asked that delegates of the municipality should be admitted to representation in conference announced in the imperial rescript of March 3, that free discussions affecting the work of the conference be permitted in the press and that the deliberations of the conference be held in public. The interview lasted an hour.

### FLATLY REFUSES.

President of Venezuela Declines to Arbitrate Differences.

Washington, March 24.—Minister Bowen cables the state department from Caracas that President Castro flatly refused to arbitrate the pending issues between Venezuela and the United States.

### CASTRO DENIES.

Asphalt Company Controversy Must Remain in the Courts.

Willemstadt, March 24.—It is announced from Caracas that President Castro has replied to Minister Bowen's final proposal for arbitration. He denies Venezuelan questions are pending with the United States and says the case of the New York and Bermudez Asphalt company must remain in the courts.

### Condition Critical.

Washington, March 24.—Condition of Senor Aspiroz, Mexican ambassador, was grave Friday.

Correspondent Compares Conduct of Russians and Japs.

### FOUR CAUSES NAMED.

Representative of a Leading Journal of St. Petersburg Says Discontent Proclamations Are Sent Soldiers.

St. Petersburg, March 24.—The Novoye Vremya publishes a remarkable dispatch from a correspondent in the field who, with the bitter taste of defeat still on his palate, discusses the causes of Russia's reverses, and contrasts the spirit with which Russia and Japan are conducting the war, and with sorrow and disheartenment arraigns the elements in Russia who are nourishing their propaganda in defeats in the far east. According to the correspondent, "broadcast among the heartsick, retreating soldiers are proclamations urging them to cease fighting and surrender." The dispatch continued: "Not even the enemy has sent us such proclamations, but has confined himself to throwing into our lines telegrams from foreign agencies about disorders in Russia. Put yourself in the place of the soldiers and officers who just returned from Mukden fatigued and heartsore from want of success, and have received from the distant home proclamations with advice of that tenor."

Setting aside the factors of a temporary nature the correspondent enumerates four main causes of misfortune:

First—Failure to establish the war on an adequate intelligence department in Manchuria or to make other preparations, contrasted with Japanese activity in that district.

Second—Russia is dependent upon a single railroad, while the Japanese have many bases, with the possibility of establishing new ones at any point on the coast.

Third—The deficiencies of many officers, whose mistakes of execution bring to naught the most carefully thought out plan of the commander of whose technical education has not kept pace with the artillery they are required to handle.

Fourth—That victory rests not with the army, but with the nation.

The correspondent pictures the patriotism, devotion and passionate longing for victory of the Japanese, and, continuing, says: "On the other side it is a nation where part of the people misunderstand the meaning of this war, or are even inimical, taking advantage of distressing times to attain more liberty. The need of greater liberty is undoubted, but it is not possible to press the campaign after the war. The country is entirely occupied with internal affairs and disorders, turning its attention to the army only occasionally, and after an unsuccessful operation, and then only to pour a flood of discouragement or abuse, or to send a palliative to the retreating forces a heap of revolutionary proclamations."

In concluding, the correspondent pleads for a few words of encouragement and acknowledgment that the 90,000 who fell around Mukden are not unappreciated sacrifices, so that others in dying may bless the fatherland for which they fall.

### LOAN TO JAPAN.

Negotiations For One Hundred and Fifty Million Dollars Concluded.

New York, March 24.—Negotiations for a Japanese government loan of \$150,000,000 have been successfully concluded in London by Kuhn, Loeb & Co. of this city, who will share in the loan. They made the announcement loan will bear interest at the rate of 4 1/2 per cent, and will be secured by a first mortgage on the tobacco monopoly. One-half of the entire loan will be taken in this country. Kuhn, Loeb & Co. will manage an American syndicate with the assistance of the National City bank and the National Bank of Commerce. The term of maturity of the new loan has not yet been disclosed, nor has the subscription price, but it is understood that Japan has given better terms than in the two previous loans.

### PACIFIC PROPOSALS.

Those Who Favor Peace Think They Have Carried the Day.

St. Petersburg, March 24.—Ministers and supporters of court who advocate submission of pacific proposals to Japan, as previously set forth in these dispatches, so as to ascertain whether an honorable basis of peace is possible, believe they have carried the day, and the Associated Press hears on high authority that actual steps are imminent if not already taken.

### Runs Twenty Years.

London, March 24.—According to newspaper statements here the new Japanese loan will be issued at 90 and will run twenty years with the option then to Japan of redemption at par at the end of five years.

### Emperor William Sails.

Cuxhaven, March 24.—Emperor William has started on his Mediterranean cruise on board the steamer Hamburg, placed at his disposal by the Hamburg-American line. The Hamburg was escorted by the armored cruiser Prinz Frederick Karl.

### Child Drowned.

Temple, Okla., March 24.—While playing near a pool of water the little child of Mr. Dixon fell in face down and was drowned.

### GONE FROM US.

Money that is Spent for Transient Advertising Schemes of Little Benefit.

Advertising of a transient nature is admitted by all experts in the science to be the least effective, and often altogether worthless. Yet people with advertising schemes—placards, books, gift libraries, calendars, moving pictures, etc., always reap a rich harvest in Bryan, notwithstanding the town is well supplied with newspapers, the medium that is acknowledged to be the best on earth for reaching the public, and the medium which the public naturally looks to for business announcements, and information as to dealers in different lines.

Money spent at home for advertising comes right back into circulation at home, while that paid to the scheme vender is most of it taken away, never to return. The Merchants' Association recently attempted to be organized here proposed a reform along this line, and business men might do well to complete the organization for this and other good purposes it had in view. At least \$500 has been spent here in the last two months for this kind of business, and it is gone from us like a dream.

### TRACY PASSES AWAY.

Former Democratic Congressman Who Opposed Free Silver Coinage.

Albany, N. Y., March 24.—General Charles Tracy died Friday, aged fifty-seven years, after an illness of some months. General Tracy served as a member of congress from 1887 to 1905. In congress he was one of the leading Democratic opponents of free silver.

### Called For Dispatches.

Dover, Eng., March 24.—The Hamburg-American line steamer Hamburg, from Cuxhaven, with Emperor William on board bound for the Mediterranean, called for dispatches and proceeded. Salutes were exchanged between the forts and the German armored cruiser Prinz Frederick Karl.

### Preliminary Contract Signed.

St. Petersburg, March 24.—A preliminary contract was signed with a number of Russian banks for the issue of \$75,000,000 of the proposed internal loan of \$100,000,000. The bonds bear interest at the rate of 5 per cent per annum, and are redeemable in fifty years. The issue price is 96.

### Signing Completed.

London, March 24.—Signature and agreement between Venezuela and Anglo-German bondholders adjusting and consolidating the exterior debt (about \$28,600,000) has been completed. Sixty per cent of customs of all ports except Laguayra and Porto Cabello are given as security.

### TO THE PEOPLE OF BRYAN.

Open Letter from Kind Hearted Ohioan.

The following letter will be of great interest to our readers. It breathes the true spirit of charity, of helping others. May it do the good that Mr. Carpenter hopes for.  
To the People of Bryan:  
Although I may be unknown to you, yet I hope my experience will carry the weight that earnestness always should. I believe in doing good to my fellow men, and in no way can I help them better than in pointing out the road to health.

Hyomei, the treatment that cures catarrh without stomach dosing, has done me so much good that I want everybody to know of its merits. I had a very bad case of catarrh, and Hyomei completely cured me. I have recommended it to my neighbors, and they, too, have been cured. Now I want everybody in all parts of the country to know what Hyomei has done for me.

George W. Carpenter,  
Vincent, Ohio.

Hyomei contains the healing balsams that are found in the air upon the mountains, where catarrh is unknown. It destroys all catarrhal germs in the air passages of the head, throat and lungs, and makes complete cures.

A complete outfit costs but \$1.00, while extra bottles can be obtained for 50c. Ask E. J. Jenkins to show you the strong guarantee under which he sells the treatment.

Adopted by the city council and approved by the Mayor, this 17th day of January, 1906.  
C. M. Spell, R. H. Harrison,

### PORTER CALLED

American Ambassador Holds a Conference With French Foreign Minister.

Paris, March 24.—In the course of Ambassador Porter's weekly visit to the foreign office Thursday he conferred with Foreign Minister DelCasse relative to the Franco-Venezuelan situation. It disclosed that the French minister considers the emergency situation has been entirely relieved as a result of the indefinite postponement of the decision of Caracas court in the case of the French Cable company. The future course is expected to be slow owing to the necessity for carrying negotiations by mail. Authorities here share the belief concerning the hopelessness of the present regime in Venezuela and incline to the view that sooner or later some united means may have to be taken to insure respect for foreign interests in Venezuela.

### BEATEN AND ROBBED.

Victim Loses Large Sum and Paralyzed From Hips Down.

Portland, Ore., March 24.—An Oregonian special from Salem, Ore., states that Norman Davenport, whose home is in New York City, has been robbed by two thugs there of \$480 and as a result of a brutal attack is paralyzed from his hips down. Davenport was set upon during the evening by two men while walking along one of the principal streets of the city. One of the men stepped in front of him and pointing a revolver at him commanded him to throw up his hands. The other fellow went behind and threw Davenport to the ground with terrific force by placing his knee in the small of Davenport's back and his arm around his neck. Their victim prostrated, the men secured the money and escaped. At the hospital where he was taken it is feared that Davenport's back is broken.

### TWELVE TESTIFIED.

That Number of Witnesses Have Been Heard In Beef Trust Case.

Chicago, March 24.—Twelve out-of-town witnesses, supposed to be men employed by various packing firms and retail dealers, have thus far testified before the special grand jury which is hearing evidence against the so-called "beef trust." Although the censorship against any publicity of what transpires in the jury room is as strict as on the first day of the investigation, and witnesses have been so thoroughly coached that they fear to make their names public, it was learned that almost all of Thursday's session District Attorney Morrison sought evidence concerning the price retail dealers in meats were forced to pay the packers and the prices some of the packing concerns have been paying the cattle raisers for beef on the hoof. The three most important witnesses before the jury along this line were R. C. Rowe, general manager for Armour & Co. at Omaha, and T. W. Kelly, retail meat dealer at Cedar Rapids, Ia., and Robert Hall, in the same business at Kansas City.

### NEWBERRY APPOINTED.

### CANNOT REINSURE.

Insurance Company So Doing Will Render Itself Liable For Penalties.

Little Rock, March 24.—Upon the request of an insurance company in Texas for a construction of the anti-trust law as relating to insurance companies Attorney General Rogers has rendered an opinion to the effect that no insurance company authorized to do business in Arkansas can reinsure all or any part of its liability in any company not authorized to do business in the state without subjecting itself to the penalties prescribed in the new anti-trust law.

## VACATING OF HARBIN

Women and Children Leave and Mercantile Houses Close.

## KUROKI'S MOVEMENT

He Is Thought to Be Headed in the Direction of Vladivostok, but Russian Military Experts Are Still Guessing.

Gunshu Pass, Manchuria, March 24.—Women and children are reported to be leaving Harbin and business houses are closing. The stationary hospitals are being moved back and the entire railroad east and south of Tsitsihar is being prepared for the next stage of the war. Conviction exists that General Kuroki is now moving toward the northeast for investment of Vladivostok, changing his base for that purpose to "Gensan." While the Manchurian railway is employed to supply the main army in its advance on Harbin, the Japanese seem still partial to the plan of keeping close to their sea bases, and instead of following the Russians some military experts are of the opinion the Japanese may relieve the pressure upon General Linevitch and thus induce him to concentrate in the region between Santopu and Tie-Pass for another battle. But throughout the campaign all prognostications of experts regarding the plans of the Japanese have failed. The aspirations of the Japanese are consistently fattening upon the victories achieved. The rank and file of the Russian army show a peculiar adaptability to conform with new conditions and accommodate themselves to the wishes and intentions of the commander in chief and the government.

## HISTORY OF INTRIGUES.

Papers Supporting Peace Movement Are Publishing Some Matters.

St. Petersburg, March 24.—Papers supporting the campaign for peace are beginning to print quite openly the history of intrigues in the far east for protection of private interests. They are devoting special attention to M. Bezobrazoff's connection with the Yalu timber concession. Articles include the secret memorandum of General Kuropatkin, pointing out that war would be inevitable if the Russian interests extended into Korea.

The necessity for increased taxation to meet expenses of the war is recognized and minister of finance has submitted projects to the council of the empire, including taxes on beer, matches, etc., and graduated tax on salaries of government officials, beginning with 1 per cent on salaries over \$300, which altogether will realize about \$11,000,000. There is also a proposition for a general income tax, which will undoubtedly prove the most popular form of raising money, as it will bear the heaviest on those able to pay.

## ALL BUT DATE.

With This Exception Final Details of Japanese Loan Concluded.

London, March 24.—With the exception of the exact date of issue, Japanese loan of \$150,000,000 at 4½ per cent, price of issue 90 and security net receipts of tobacco monopoly of Japan, has been completed. This city and New York each take \$75,000,000. The loan is redeemable after five years. Some subscriptions are expected in Switzerland and Holland. Japan found no difficulty in securing the amount required in New York and London.

## Squadron at Port Said.

Port Said, March 24.—Admiral Nebogoff's division of the Russian Second Pacific squadron, consisting of a battleship, four cruisers and four transports, arrived here. The vessels are not coaling and only taking moderate supplies on board. The transports are heavily laden with stores.

## Delegates Received.

St. Petersburg, March 24.—Interior Minister Boulganin received a delegation from the municipality of Moscow, who asked that delegates of the municipality should be admitted to representation in conference announced in the imperial rescript of March 3, that free discussions affecting the work of the conference be permitted in the press and that the deliberations of the conference be held in public. The interview lasted an hour.

## FLATLY REFUSES.

President of Venezuela Declines to Arbitrate Differences.

Washington, March 24.—Minister Bowen cables the state department from Caracas that President Castro flatly refused to arbitrate the pending issues between Venezuela and the United States.

## CASTRO DENIES.

Asphalt Company Controversy Must Remain in the Courts.

Willemstadt, March 24.—It is announced from Caracas that President Castro has replied to Minister Bowen's final proposal for arbitration. He denies Venezuelan questions are pending with the United States and says the case of the New York and Bermudez Asphalt company must remain in the courts.

## Condition Critical.

Washington, March 24.—Condition of Senor Aspiroz, Mexican ambassador, was grave Friday.

## CONTRAST IS DRAWN.

Correspondent Compares Conduct of Russians and Japs.

## FOUR CAUSES NAMED.

Representative of a Leading Journal of St. Petersburg Says Discontent Proclamations Are Sent Soldiers.

St. Petersburg, March 24.—The Novoye Vremya publishes a remarkable dispatch from a correspondent in the field who, with the bitter taste of defeat still on his palate, discusses the causes of Russia's reverses, and contrasts the spirit with which Russia and Japan are conducting the war, and with sorrow and disheartenment arraigns the elements in Russia who are nourishing their propaganda in defeats in the far east. According to the correspondent, "broadcast among the heartsick, retreating soldiers are proclamations urging them to cease fighting and surrender." The dispatch continued: "Not even the enemy has sent us such proclamations, but has confined himself to throwing into our lines telegrams from foreign agencies about disorders in Russia. Put yourself in the place of the soldiers and officers who just returned from Mukden fatigued and heartsore from want of success, and have received from the distant home proclamations with advice of that tenor."

Setting aside the factors of a temporary nature the correspondent enumerates four main causes of misfortune:

First—Failure to establish the war on an adequate intelligence department in Manchuria or to make other preparations, contrasted with Japanese activity in that district.

Second—Russia is dependent upon a single railroad, while the Japanese have many bases, with the possibility of establishing new ones at any point on the coast.

Third—The deficiencies of many officers, whose mistakes of execution bring to naught the most carefully thought out plan of the commander of whose technical education has not kept pace with the artillery they are required to handle.

Fourth—That victory rests not with the army, but with the nation. The correspondent pictures the patriotism, devotion and passionate longing for victory of the Japanese, and, continuing, says: "On the other side it is a nation where part of the people misunderstand the meaning of this war, or are even inimical, taking advantage of distressing times to attain more liberty. The need of greater liberty is undoubted, but it is not possible to press the campaign after the war. The country is entirely occupied with internal affairs and disorders, turning its attention to the army only occasionally, and then only to pour a flood of discouragement or abuse, or to send a palliative to the retreating forces a heap of revolutionary proclamations."

In concluding, the correspondent pleads for a few words of encouragement and acknowledgment that the 90,000 who fell around Mukden are not unappreciated sacrifices, so that others in dying may bless the fatherland for which they fall.

## LOAN TO JAPAN.

Negotiations For One Hundred and Fifty Million Dollars Concluded.

New York, March 24.—Negotiations for a Japanese government loan of \$150,000,000 have been successfully concluded in London by Kuhn, Loeb & Co. of this city, who will share in the loan. They made the announcement loan will bear interest at the rate of 4½ per cent, and will be secured by a first mortgage on the tobacco monopoly. One-half of the entire loan will be taken in this country. Kuhn, Loeb & Co. will manage an American syndicate with the assistance of the National City bank and the National Bank of Commerce. The term of maturity of the new loan has not yet been disclosed, nor has the subscription price, but it is understood that Japan has given better terms than in the two previous loans.

## PACIFIC PROPOSALS.

Those Who Favor Peace Think They Have Carried the Day.

St. Petersburg, March 24.—Ministers and supporters of court who advocate submission of pacific proposals to Japan, as previously set forth in these dispatches, so as to ascertain whether an honorable basis of peace is possible, believe they have carried the day, and the Associated Press hears on high authority that actual steps are imminent if not already taken.

## Runs Twenty Years.

London, March 24.—According to newspaper statements here the new Japanese loan will be issued at 90 and will run twenty years with the option then to Japan of redemption at par at the end of five years.

GONE FROM US.

Money that is Spent for Transient Advertising Schemes of Little Benefit.

Advertising of a transient nature is admitted by all experts in the science to be the least effective, and often altogether worthless. Yet people with advertising schemes—placards, books, gift libraries, calendars, moving pictures, etc., always reap a rich harvest in Bryan, notwithstanding the town is well supplied with newspapers, the medium that is acknowledged to be the best on earth for reaching the public, and the medium which the public naturally looks to for business announcements, and information as to dealers in different lines. Money spent at home for advertising comes right back into circulation at home, while that paid to the scheme vender is most of it taken away, never to return. The Merchants' Association recently attempted to be organized here proposed a reform along this line, and business men might do well to complete the organization for this and other good purposes it had in view. At least \$500 has been spent here in the last two months for this kind of business, and it is gone from us like a dream.

TRACY PASSES AWAY.

Former Democratic Congressman Who Opposed Free Silver Coinage. Albany, N. Y., March 24.—General Charles Tracy died Friday, aged fifty-seven years, after an illness of some months. General Tracy served as a member of congress from 1887 to 1905. In congress he was one of the leading Democratic opponents of free silver.

Called For Dispatches.

Dover, Eng., March 24.—The Hamburg-American line steamer Hamburg, from Cuxhaven, with Emperor William on board bound for the Mediterranean, called for dispatches and proceeded. Salutes were exchanged between the forts and the German armored cruiser Prinz Frederick Karl.

Preliminary Contract Signed.

St. Petersburg, March 24.—A preliminary contract was signed with a number of Russian banks for the issue of \$75,000,000 of the proposed internal loan of \$100,000,000. The bonds bear interest at the rate of 5 per cent per annum, and are redeemable in fifty years. The issue price is 96.

Signing Completed.

London, March 24.—Signature and agreement between Venezuela and Anglo-German bondholders adjusting and consolidating the exterior debt (about \$28,600,000) has been completed. Sixty per cent of customs of all ports except Laguayra and Porto Cabello are given as security.

TO THE PEOPLE OF BRYAN.

Open Letter from Kind Hearted Ohioan.

The following letter will be of great interest to our readers. It breathes the true spirit of charity, of helping others. May it do the good that Mr. Carpenter hopes for.

To the People of Bryan:  
Although I may be unknown to you, yet I hope my experience will carry the weight that earnestness always should. I believe in doing good to my fellow men, and in no way can I help them better than in pointing out the road to health.

Hyomei, the treatment that cures catarrh without stomach dosing, has done me so much good that I want everybody to know of its merits. I had a very bad case of catarrh, and Hyomei completely cured me. I have recommended it to my neighbors, and they, too, have been cured. Now I want everybody in all parts of the country to know what Hyomei has done for me.

George W. Carpenter,

Vincent, Ohio.

Hyomei contains the healing balsams that are found in the air upon the mountains, where catarrh is unknown. It destroys all catarrhal germs in the air passages of the head, throat and lungs, and makes complete cures.

A complete outfit costs but \$1.00, while extra bottles can be obtained for 50c. Ask E. J. Jenkins to show you the strong guarantee under which he sells the treatment.
